

COO / Director of Operations Role & Responsibilities

Laurie's role is to operate and organize the company so Austin can lead it. She brings structure, governance, and operational rigor — building the systems, managing the people, running the financials, and ensuring every part of the organization moves with clarity and accountability.

1 About This Role

Laurie's role is to operate and organize the company so Austin can lead it. She brings structure, governance, and operational rigor — building the systems, managing the people, running the financials, and ensuring every part of the organization is moving with clarity and accountability. This frees Austin to focus on leadership, strategy, business development, partnerships, and the relationships that grow the company.

2 Core Responsibilities

- Build and maintain the company P&L, annual budget, and 5-year financial plan
- Manage and direct all day-to-day operations across the organization
- Build and implement organizational structure — procedures, SOPs, accountability frameworks
- People management: level up each team member, assign clear outcomes, hold people accountable
- File management, scheduling, timelines, and meeting cadence
- Support hiring decisions and onboarding of new team members
- Facilitate regular, productive team meetings with clear agendas, notes, and resolutions
- Build corporate governance processes in line with the company's entity structure
- Track and report key business metrics and performance indicators
- Manage projects and unit scaling — ensuring operational capacity keeps pace with growth
- Coordinate across all company pillars: Housing Operations, Development, Finance, Marketing/PR

3

Day-to-Day

MORNING

- Review priorities
- Check in with team leads
- Flag blockers early

WEEKLY

- Run team meeting
- Review KPIs
- Prepare Austin's weekly summary

MONTHLY

- Financial reporting
- Budget vs actuals
- Project status updates

ONGOING

- Manage people
- Maintain systems
- Resolve operational issues
- Update SOPs

4

What Austin Gets

Austin steps out of operations and into leadership, BD, strategy, and partnerships

One person accountable for the whole operational machine

Clear visibility into financial health at all times

A team that knows what they're doing, why it matters, and what success looks like

Meetings that produce outcomes, not just conversations

A company that can scale without Austin being the bottleneck

5

Attributes Austin Is Looking For

DRIVEN

Self-directed, doesn't need hand-holding, moves with urgency

HEALTHCARE

Healthcare space knowledge (or fast learner with genuine interest)

DETAIL

Detail-oriented — catches what others miss, lives in the numbers

VALIDATION

Tests business plans and validates metrics before committing

PROFIT

Profitability-focused — every decision filtered through margin and ROI

OPERATOR

Excellent at what they do — a "killer" operator who takes ownership

ORGANIZER

Files, people, timelines, schedules always in order and findable

BUILDER

Creates procedures, trains people, builds repeatable systems

PEOPLE

Develops individuals, raises the floor for the whole team

HIRING

Helps find and qualify the right people — strong hiring instinct

DO

- ✓ Come prepared — read the room, know what's happening before the meeting starts
- ✓ Bring summaries — Austin thinks in outcomes, not updates
- ✓ Deliver key outcomes with clear deadlines — he's intense, match that energy
- ✓ Take good notes — write it down, act on it, close the loop
- ✓ Bring resolutions — don't surface problems without a proposed solution
- ✓ Keep everyone clear on what they need to do — direction, accountability, deadlines
- ✓ Organize everything — files, people, timelines, schedules should always be findable
- ✓ Be direct — Austin doesn't want to guess what you're thinking

DON'T

- ✗ Don't come unprepared to meetings
- ✗ Don't create more noise — simplify, don't complicate
- ✗ Don't let things drift without flagging it

7 Outcomes – 6 Months / 1 Year / 2 Years

6 Months

- P&L, budget, and 5-year financial plan built and live
- Clear company structure — everyone knows their role and outcomes
- Management meetings in place and running productively
- File and scheduling systems implemented
- Austin fully transitioned out of day-to-day operations

1 Year

- Working org chart with full accountability
- Each team member delivering measurable value (target: 3x their cost)
- Company managing projects, units, and growth with structured team
- Regular reporting cadence: weekly, monthly, quarterly
- Hiring processes refined — right people in right seats

2 Years

- Full corporate structure operational — institutional-grade organization
- Each function has clear leader, clear metrics, clear outcomes
- Austin operating entirely at leadership and strategy level
- The organization executes goals and projects independently
- ERS attracts talent, capital, and partners because it runs like a real company
